Jelena Kostić, Dragana Kalinić,  
Ivana Milosavljević-Đukić, Duško Stupar,  
Minja Ninković, Roberto Grujičić,  
Ninoslava Simić, Jovan Milatović

Dear colleagues, associates and friends,

From the last congress until today, the world has faced one of the biggest challenges, where an invisible particle in the form of a virus reminded us of all our vulnerabilities, weaknesses and put us in a situation of questioning values and priorities. Therefore, we want to dedicate our VI Congress to the new realities, experiences and knowledge we have gained in this period, which relate to the mental health of children and youth.

It is my great pleasure to invite you to our VI Congress which will be held from 26<sup>th</sup> to 28<sup>th</sup> of May 2022, now in a new environment, the beautiful Vrnjačka Banja. It is a more developed Serbian spa, with a long healing tradition, a spa where whole generations came for their "dose of health", and yet it is much more than that, much more than a spa and much more than "just" a spa.

We want to welcome all members of our society as well as all of you who have been cooperating for years and contributing to making our mission meaningful. Along with domestic and foreign experts in the field of mental health of children and youth, but also those who influence the mental health to be important - our colleagues from social services, education, justice want to discuss and hear about new knowledge, experiences and realities when it comes to children and young people, as well as all those who make their childhood and youth a period of maximum well-being. We want the congress to be a new opportunity to meet, socialize and establish new contacts and relations.

This time we will have plenary lectures, symposia, the opportunity to present case studies, workshops and poster sessions. All lectures of the symposium will go through the plenum, so there will be an opportunity for all of us to listen to the speakers that we will carefully choose so that we can hear what new experiences and knowledge are in the field of mental health of children and youth.

The proposed topics of the symposium are those that we believe correspond to the most significant and / or most common problems faced by children and young people, as well as those that deal with them.

The Congress will be accredited by the Health Council of Serbia and reported to the Chamber of Social Care Services.

Until the publication of the final program, all activities and information about the organization of the Congress can be followed on our website: [www.deaps.org](http://www.deaps.org).

I look forward to working together and gathering at the Congress in Vrnjačka Banja.

**President of the Society**  
**Prof. dr Milica Pejović Milovančević**
